SMOOTH SURFACE APP CLASSIC

In keeping with industry standards to achieve maximum life expectancy, effective this date forward, IKO Industries Ltd. in Canada will require a reflective coating applied to Armourplast Classic more than 30 days, less than 90 days after date of installation. This requirement applies to warranted applications and is strongly recommended for non-warranted applications.

Contact your coating manufacturer for type of reflective coating, quantity, and application instructions to ensure proper UV resistance.

For additional information, please contact your local IKO Sales Representative.

For additional information on any of IKO's products or application requirements, visit us on the web at www.iko.com (North America), or contact us in Canada/United States at 1-800-361-5836 (press "1" for English and then "2" for our Technical Support Department).
