No. R-38

REV. – DECEMBER 2006

# GLASS SHINGLE UNDERLAYMENT REQUIREMENTS

IKO recommends asphalt saturated felt or synthetic underlayment as underlayment beneath IKO fibreglass shingles, especially for slopes between 4" in 12" and 6" in 12". (Note: Special underlayment requirements also apply to shingles installed on slopes below 4:12 down to 2:12.) This information is listed on our shingle bundle wrappers, residential brochures and in our asphalt shingle limited warranties.

For additional information on any of IKO's products or application requirements, visit us on the web at [www.iko.com](http://www.iko.com), or contact us in Canada at 1-888-766-2468, or the United States at 1-888-456-7663.
