Complete and retain for your records - do not send to IKO.

Note: This Limited Warranty form does not constitute proof of product purchase.

Pride of Ownership... Peace of Mind are now yours.

Congratulations on your purchase of IKO asphalt roof shingles. Your purchase has truly enhanced the stature of your home while providing long term, worryfree protection from nature's nasty elements.

The information contained in this booklet details how IKO supports you after the sale of our roofing shingles. IKO extends this limited warranty coverage together with our unique "IRON CLAD" PROTECTION coverage.

Note: Your contractor or roofer is not a representative, agent, or employee of IKO. IKO is not liable for any representations or warranties regarding IKO products offered that may be made by any contractor, roofer or any other person not employed by IKO. IKO does not warrant or guarantee the workmanship of the contractor or roofer. Subject to the law of your jurisdiction, IKO is only liable for the warranties contained in this document.

Please read and retain this copy of the IKO Asphalt Shingle Limited Warranty.

IKO, ... Setting the Standard!

IMPORTANT INFORMATION

The start date for this limited warranty is the date the application of your shingles to your home is completed. Your "IRON CLAD" PROTECTION begins at this point.

The proper application instructions for your shingles can be found on each and every bundle wrapper. To ensure that your shingles perform as expected and provide the intended protection, these application instructions must be strictly adhered to. Failure to follow instructions may void the limited warranty. Use of an approved underlayment beneath fiberglass shingles is strongly recommended, especially on roof slopes below 6:12. See the bundle wrapper for complete installation requirements. Do not apply shingles to roof slopes below 2:12.

ASSISTANCE AND NOTIFICATION

- 1) Product information, sales literature and product color samples are available from your local IKO roofing distributor or on the web at www.iko.com (North America).
- 2) Technical assistance on product specifications, application recommendations, or expanded information on the entire IKO product line is available by calling the IKO Technical Hotline at 1-800-361-5836, or e-mail us at residential.technical@iko.com.
- 3) Should the need arise to contact IKO concerning a question on product quality, warranty coverage or a claim, call IKO Customer Service at 1-800-361-5836 in Eastern Canada or e-mail productconcerns.east@iko.com, or 1-800-521-8484 in Western Canada or e-mail productconcerns.west@iko.com

IKO IRON CLAD PROTECTION

IKO has been producing high quality roofing products, world-wide, for over three generations. We put this reputation for quality to the test each time our shingles are installed. Experience has shown that the early years following installation are the most critical ones to you. That is why we offer the unique initial limited warranty coverage we call "IRON CLAD" PROTECTION, which, depending on the product purchased, can cover up to the first ten (10) years after installation.

In plain English, and subject to the terms set out below, during the "IRON CLAD" PROTECTION period, IKO will have the shingles repaired or replaced *free of charge* (exclusive of costs for tear-off of shingles, flashings, metal work, and disposal), should our shingles contain a manufacturing defect which results in leaks.

† Maximum Limited Warranty Period for these shingles shall be 50 years when installed on commercial, apartment or condominium buildings.

* n - number of months since Purchase, m - number of months beyond 180 months.

** Note: Hip and Ridge shingles should be Marathon Ultra AR, IKO Ultra HP, IKO Hip & Ridge 12 or approved equivalent.

ALL IMPLIED WARRANTIES, AND CONDITIONS, INCLUDING MERCHANTABILITY AND FITNESS, ARE HEREBY EXCLUDED TO THE EXTENT PERMITTED BY LAW. TO THE EXTENT THAT ANY IMPLIED WARRANTY MAY NOT BE EXCLUDED AS A MATTER OF LAW, ANY SUCH IMPLIED WARRANTY, INCLUDING MERCHANTABILITY AND FITNESS, IS LIMITED TO THE DURATION OF THIS WARRANTY.

Some provinces may not allow exclusions of implied warranties or limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This limited warranty covers IKO asphalt shingles sold by IKO Industries Ltd. that are applied to buildings domiciled within Canada. (Please refer to the following pages for the remainder of warranty and limitations.)

ASPHALT SHINGLE LIMITED WARRANTY

IKO Industries Ltd., subject to the conditions and limitations listed herein, warrants to the original consumer-purchaser that the shingles listed above are free from manufacturing defects that result in leaks. This limited warranty begins at the time of completion of installation, and shall run for the length of time specified above, for the particular shingle. This limited warranty gives you specific legal rights, and you may also have other rights which vary from province to province.

IRON CLAD PROTECTION FOR ALL SHINGLES

IKO offers Iron Clad Protection for every shingle covered by this warranty. The period of Iron Clad coverage for each type of shingle is set out below. The period of the Iron Clad Protection begins after the completion of installation of the applicable IKO shingles. During the period of Iron Clad Protection, IKO will, at its option, have any defective shingles repaired or replaced, free of charge, if the following conditions ("the conditions") are met:

- The person making the warranty claim is either the person who purchased the shingles (whether directly or through the roofer who installed them), or the person to whom this warranty is transferred as set out below,
- The repair or replacement takes place on the building/structure to which the shingles covered by this warranty were originally applied, and
- The shingles are proven to contain a manufacturing defect which has resulted in leaks.

In that event, IKO's maximum liability shall be limited to the reasonable cost of placing new shingles on your roof. This means that if you are eligible for this warranty coverage, IKO will supply replacement shingles similar to those already on your roof, plus a reasonable allowance for the installation of those new shingles to your roof. This limited liability will only apply toward shingle repairs or replacement on the building/structure to which the shingles covered by this warranty were originally applied. IKO will not be responsible for the cost of disposal, tear-off, flashing, metal work, repair of any damage caused by or associated with any leakage or any other costs or expenses you may incur.

BEYOND IRON CLAD PROTECTION

IKO offers further limited warranty protection for every shingle covered by this warranty for a fixed period after the Iron Clad Protection expires. IKO calls this protection Beyond Iron Clad Protection. The period of Beyond Iron Clad Protection for each type of shingle is set out below. During the period of Beyond Iron Clad Protection, and provided that the conditions are met, IKO's maximum liability shall be the prorated portion of the value of the shingles at the time you reported the defect. This limited liability will only apply toward shingle repairs or replacement on the building/structure to which the shingles covered by this warranty were originally applied. IKO will not be responsible for the cost of labor, disposal, tear-off, flashing, metal work, repair of any damage caused by or associated with any leakage or any other costs or expenses you may incur. IKO's prorated limited liability is calculated by reducing the reasonable replacement shingle cost by the reduction figure. The amount of the applicable reduction figure is based on the number of months that the shingles had been installed on the roof covered by this warranty at the time IKO was notified of the claimed manufacturing defect.

Chart A WARRANTY INFORMATION TABLE FOR ARMOURSHAKE, CAMBRIDGE LT & CROWNE SLATE SHINGLES ONLY

Name of Shingle	Warranty	IKO Protection Period	Reduction Figure for Months 121-206	Reduction Figure for Months 207-480	Reduction Figure for Months 481+	*where n=number of months since installation
ARMOURSHAKE	Limited Lifetime	10 Years	n*/260	384/480	432/480	
CAMBRIDGE LT	Limited Lifetime	10 Years	n*/260	384/480	432/480	
CROWNE SLATE	Limited Lifetime	10 Years	n*/260	384/480	432/480	

IRON CLAD PROTECTION FOR ARMOURSHAKE, CAMBRIDGE LT, and CROWNE SLATE ONLY - 10 YEARS

The period of Iron Clad Protection for Armourshake, Cambridge LT and Crowne Slate shingles begins at the time of completion of the installation of the shingles and continues for the following 120 months (10 years).

BEYOND IRON CLAD PROTECTION FOR ARMOURSHAKE, CAMBRIDGE LT and CROWNE SLATE ONLY

The period of Beyond Iron Clad Protection for Armourshake, Cambridge LT and Crowne Slate shingles begins 120 months after completion of installation of the shingles. The coverage afforded during the period of Beyond Iron Clad Protection is prorated as set out above and in Chart A. The prorated protection for months 121-206 is calculated by reducing the reasonable replacement material cost by the monthly reduction figure in Chart A for each month the shingle has been installed. The prorated protection for months 207-480 is calculated by multiplying the reasonable replacement shingle cost by the reduction figure listed in Chart A. The prorated amount for months 481+, is calculated by multiplying the reasonable replacement shingle cost by the reduction figure listed in Chart A.

IRON CLAD PROTECTION FOR ROOFSHAKE 40, CAMBRIDGE 30, CAMBRIDGE 30 AR, CAMBRIDGE 30 AZ, MARATHON ULTRA AR, RENAISSANCE GXL 30, MARATHON 25 AR AND MARATHON 25 SHINGLES ONLY

The period of Iron Clad Protection for IKO RoofShake 40, Cambridge 30, Cambridge 30 AR, Cambridge 30 AZ, Marathon Ultra AR, Renaissance GXL 30, Marathon 25 AR and Marathon 25 shingles begins at the time of completion of installation of the shingles, and continues for the following 60 months (5 years).

BEYOND IRON CLAD PROTECTION FOR ROOFSHAKE 40, CAMBRIDGE 30, CAMBRIDGE 30 AR, CAMBRIDGE 30 AZ, MARATHON ULTRA AR, RENAISSANCE GXL 30, MARATHON 25 AR AND MARATHON 25 SHINGLES ONLY

The period of Beyond Iron Clad Protection for IKO RoofShake 40, Cambridge 30, Cambridge 30 AR, Cambridge 30 AZ, Marathon Ultra AR, Renaissance GXL 30, Marathon 25 AR and Marathon 25 shingles begins 60 months (5) years from completion of installation and continues for the period set out in the information table above. See Chart B below for an example prorated calculation of Beyond Iron Clad Protection.

Chart B

A manufacturing defect resulting in leaks is found in a 25 year limited warranty shingle in October 2027. The shingles were purchased in October 2009; 18 years, or a total of 216 months have elapsed since installation. IKO's liability will be reduced by $(180/225 = .80) + (36/600 = .06) = .86$. So IKO's maximum liability would be 14% $(100 - 86)$ towards the replacement material cost.

LIMITED WIND RESISTANCE WARRANTY FOR SHINGLE REPLACEMENT ONLY

IKO warrants its Armourshake, Cambridge LT and Crowne Slate shingles for the initial 60 months (five (5) years) after the date of installation against wind blow-off damage due to wind velocities, including "gusts" up to a maximum of one hundred and forty-five (145) km/h. In the event that it is proven that there has been wind damage to these shingles from winds up to one hundred and forty-five (145) km/h, IKO will furnish similar replacement shingles only for the damaged shingles. If manually sealed, and additional nails are used for the above shingles, (eight (8) nails for Crowne Slate, six (6) nails for Armourshake and Cambridge LT), the limited wind resistance warranty increases to two hundred ten (210) km/h.

IKO warrants its RoofShake 40 shingles for the initial 60 months (5 years) after the date of installation against wind blow-off damage due to wind velocities, including "gusts" up to a maximum of one hundred and twenty-eight (128) km/h. In the event that it is proven that there has been wind damage from winds up to one hundred and twenty-eight (128) km/h to these shingles, IKO will furnish similar replacement shingles for the damaged shingles. If manually sealed, and additional six (6) nails are used for RoofShake 40 shingles, the limited wind resistance warranty increases to one hundred seventy-seven (177) km/h.

IKO warrants its Cambridge 30, Cambridge 30 AR and Cambridge 30 AZ shingles for the initial 60 months (5 years) after the date of installation against wind blow-off damage due to wind velocities, including "gusts" up to a maximum of one hundred and twelve (112) km/h. In the event that it is proven that there has been wind damage from winds up to one hundred and twelve (112) km/h to these shingles, IKO will furnish similar replacement shingles for the damaged shingles. If manually sealed, and additional six (6) nails are used for Cambridge 30, Cambridge 30 AR and Cambridge 30 AZ shingles, the limited wind resistance warranty increases to one hundred seventy-seven (177) km/h.

For all other shingles listed in this limited warranty, IKO warrants its shingles for the initial 60 months (5 years) after the date of installation against wind blow off damage due to wind velocities, including "gusts", up to a maximum of ninety-seven (97) km/h. In the event that it is proven that there has been wind damage from winds up to ninety-seven (97) km/h to such shingles, IKO will furnish similar shingles necessary for replacement for damaged shingles.

Any costs or expenses, other than the replacement of damaged shingles, which may be incurred due to wind damage, are the consumer/purchaser's liability. Among the costs and expenses not covered under this limited wind warranty are the labor costs for the removal of damaged shingles or the application of the replacement shingles. Homeowners may be able to pursue such claims through their homeowner's insurance.

LIMITED ALGAE RESISTANCE WARRANTY (Armourshake, Cambridge LT, Crowne Slate, Cambridge 30 AR)

In the event that within the initial 120 month (10 year) period, blue-green algae develops causing discoloration on Armourshake, Cambridge LT, Crowne Slate or Cambridge 30 AR shingles, IKO will issue to the consumer/purchaser a Labor Payment certificate which may be used to pay the reasonable cost of cleaning the shingles up to a maximum of \$15 per square. This Labor Payment will be pro-rated according to the age of the shingles and will be based upon the number of months elapsed in the warranty period divided by the 120 month (10-year) warranty period. IKO Algae Resistant shingles must be used for hip and ridge areas for Limited Algae Resistance Warranty coverage.

LIMITED ALGAE RESISTANCE WARRANTY (Marathon Ultra AR, Marathon 25 AR)

In the event that within the initial five (5) year period, blue-green algae develops causing discoloration on IKO Marathon Ultra AR, Marathon 25 AR shingles, IKO will issue to the consumer-purchaser a Labor Payment certificate which may be used to pay the reasonable cost of cleaning the shingles up to a maximum of \$15 per square. This Labor Payment will be pro-rated according to the age of the shingles and will be based upon the number of months elapsed in the warranty period divided by the 60 month (5-year) warranty period. IKO Algae Resistant shingles must be used for hip and ridge areas for Limited Algae Resistance Warranty coverage.

TERMS OF TRANSFERABILITY FOR ALL SHINGLES

This warranty may be transferred by the original consumer/purchaser to the subsequent property owner only within the 120 month (10 year) period following the completion of shingle installation. This warranty cannot be transferred after the initial 120 month period has expired. Unless this warranty is transferred during the initial 120 month period and in the manner required by this warranty, its coverage will automatically end upon the earliest of :

- the sale or transfer of the property upon which the shingles covered by this warranty were installed, or upon death of the last of the original owners of that property.

This limited warranty will only be transferable if the following conditions are met:

- Notification of a request for transfer must be received in writing by IKO at 80 Stafford Drive, Brampton, Ontario L6W 1L4, Attn: Customer Service, from the original consumer - purchaser within thirty (30) days after the date of the real estate transfer. Such requests must include a copy of the original invoice showing proof of purchase of the IKO product and a copy of the real estate transfer.
- A transfer fee of \$100.00 must accompany all requests for warranty transfer.

Any transfer that does not meet the time limits and conditions set out above will be null and void. In that event, the transferee will not be entitled to rely on or enforce this limited warranty.

TRANSFERABILITY - ARMOURSHAKE, CAMBRIDGE LT AND CROWNE SLATE SHINGLES ONLY

Should a transfer of the limited warranty for Armourshake, Cambridge LT and Crowne Slate occur:

- within the first 84 months (7 years) following the completion of shingle installation, the remainder of the "IRON CLAD" PROTECTION shall remain in effect. In that event, the duration of the warranty, measured from the date of completion of original shingle installation, shall be 180 months (15 years).
- in the period between the first 85 months and 120 months, the duration of the warranty, measured from the date of completion of original shingle installation, shall be 180 months (15 years).

In either event, warranty coverage for months 85 through 180 will be as calculated above in Chart A.

TRANSFERABILITY - ALL OTHER SHINGLES

Should a transfer of the limited warranty for all other IKO shingle products covered by this warranty take place, the "IRON CLAD" PROTECTION shall automatically terminate, and the duration of the limited warranty, measured from the date of real estate transfer, shall be two (2) years of pro-rated material-only.

NOTIFICATION OF CLAIMS

In order to receive coverage under this limited warranty the following terms for notifying IKO of any claims must be strictly followed:

- a. Contact IKO Customer Service toll-free at 1-800-361-5836 for Eastern Canada or at 1-800-521-8484 for Western Canada, immediately after you become aware of the alleged manufacturing defect.
- b. Provide all information requested by IKO's Customer Service representative.
- c. Complete and sign the Homeowner Inquiry Survey.
- d. Include with that survey all of the following:
 1. Proof of Purchase, which must identify the following: that the shingles are IKO shingles, the type of IKO shingle, the quantity of IKO shingles, and the date the IKO shingles were purchased.
 2. The required number of pictures.
 3. Two full sample shingles.(if claim is for color concerns, please send two full sample shingles of the lighter color and two full samples of the darker color)
 4. The completed and signed forms.
- e. Within thirty (30) days of discovery of the alleged defect send, prepaid (by mail or courier) all of the items set out above to IKO at :

IKO Industries Ltd.
80 Stafford Drive,
Brampton, Ontario L6W 1L4

EASTERN CANADA
WESTERN CANADA

(Phone)1-800-361-5836
(Phone)1-800-521-8484

- f. Provide IKO and its representative(s) with access to the IKO product in question and the roof upon which it was installed for the purpose of investigating the claim.

Failure to comply with any of these terms will render the claim invalid and relieve IKO of any liability under this warranty.

IKO will, within approximately sixty (60) days of receipt of the completed Homeowner Inquiry Survey, evaluate the claim and respond according to any obligations imposed by this Limited Warranty.

EXCLUSIONS AND LIMITATIONS

1. IKO will have no liability under this limited warranty for:
 - A) Any damage to the shingles caused by application contrary to IKO's printed application instructions, or any other improper application.
 - B) Any variation in color or shading between installed shingles.
 - C) Any damage to the interior or exterior of any building or any property contained within any building.
 - D) Any damage caused by Acts of God, including lightning, gale or "gusts" (except of the extent listed in the Limited Wind Resistance Warranty), hail, stones, hurricane, tornado, earthquake, explosion, flood, fungus contamination, solid objects falling on the roof or any other causes except ordinary wear and tear by the elements.
 - E) Any damage caused by settlement, distortion or cracking of the roof deck, walls or foundation of a building or failure in the materials used as a roof base or by traffic on the roof.
 - F) Any damage that arises after the roof is altered following the initial installation of the shingles. This exclusion applies whether any such alteration is by structural additions, changes, or replacement or equipment installations (including without limitation, aerials, signs, water towers, fan housings, air conditioning equipment, solar heaters, water heaters, television antennas and skylights).
 - G) Any costs incurred for repair or replacement not authorized in writing by IKO.
 - H) Any damage that arises from any cause other than a manufacturing defect.
 - I) Any discoloration due to the presence of mold, mildew, fungus, algae or pollutant (excluding blue-green algae affecting Armourshake, Cambridge LT, Crowne Slate, Cambridge 30 AR, Marathon Ultra AR and Marathon 25 AR when IKO Algae Resistant shingles are used for hip and ridge areas also).
 - J) Any damage or distortion caused by inadequate ventilation.
 - K) Any backsurfacing transfer or asphalt staining.
 - L) Any costs related to disposal.
 - M) Any costs related to the removal of any asbestos present in the roof to which IKO shingles are installed.
 - N) Any damage due to the effects of resins/drippings from nearby trees contacting the shingles. Such damage may include blisters on the shingle surface.
 - O) Any costs for disposal, tear-off, flashing, metal work, repair of any damage caused by or associated with any leakage or any other costs or expenses you may incur.
 - P) Any color fading of the blue granules used in any shingle blends.
 - Q) Any damage due to the affects of chemicals on the shingles, including, but not limited to, aliphatic or aromatic solvents, chlorinated hydrocarbons, turpentine, oils, organic or inorganic polar materials, or excessive use of asphalt roof cements.
 - R) Any costs for labour not expressly set out in this limited warranty.
 - S) Any other costs or expenses not expressly provided for under this limited warranty.

2. The limited warranty terms set out in this document apply to shingles installed on roof slopes of 4 in 12 (1:3) and steeper. The limited warranty period for shingles installed on roof slopes of less than 4 in 12 (1:3) and down to 2 in 12 (1:6) is 12 years (If certain application procedures are followed, see shingle product wrapper for details), and will be pro-rated for material only, exclusive of labor, etc., at an annual reduction of 8.33%. (If certain application procedures are followed, a full limited warranty will be in effect for slopes between 3:12 to 4:12. See shingle product wrapper for details). Armourshake, Cambridge LT and Crowne Slate will only be warranted when applied to roof slopes 4 in 12 (1:3) or steeper. Use of an approved underlayment is strongly recommended beneath all shingle applications, below 6:12.

3. All shingles which contain a factory applied self sealing strip must be subjected to direct sunlight for several days before full sealing will occur. Shingles installed in the fall or winter may not seal until the following spring. Shingles which do not receive direct sunlight or which are not exposed to adequate surface temperatures may never seal. Damage to the factory applied self sealing strip by dust, sand, or foreign matter will prevent the sealing strip from activating. This is the nature of shingles and failure to seal down under such circumstances is not a manufacturing defect. IKO will not be responsible for any blow-offs or wind damage that may occur prior to thermal sealing having occurred. After the shingles have sealed, however, they will be covered under this warranty if they experience blow-offs or wind damage in winds up to the levels listed in the Limited Wind Resistance Warranty section.

4. IKO does not provide any warranty coverage to its shingles when they are installed over insulated roof deck panels.

5. IKO will not be liable for damage caused by insufficient attic ventilation or roof drainage. Ventilation must meet building code requirements. Also, IKO is not liable for damage caused to products installed over a roof deck that is not properly ventilated with an air space between the roof deck and the insulation. Approximately half of the ventilation must be at the eaves, with the remaining half at the top, or ridge of the roof.

6. Exclusions 4 & 5 notwithstanding any fiberglass asphalt shingles manufactured to meet ASTM D3462 applied to roof deck assemblies (slopes > 2:12) where foam insulation is prefabricated into the roof deck system (often called "nailboard insulation"), or where insulation is installed immediately beneath an acceptable roof deck system, or where radiant barriers are installed, with or without ventilation, directly below the deck, shall qualify for a reduced limited warranty duration of 10 (ten) years with no Iron Clad Protection coverage, with respect to shingle problems related to the absence of adequate roof system ventilation (linear pro-ration over 10 (ten) years). The roof design professional is responsible to ensure; 1) the proper quality and correct application of the insulation and/or radiant barrier, 2) the provision of adequate structural ventilation and/or vapor retarders as they determine to be necessary, and 3) that all local codes are met (especially considering local climate conditions). *These important factors and decisions are **not** the responsibility of IKO but are critical to assure proper deck system performance.*

7. In all cases, replacement shingles are warranted only for the remainder of the original shingles' limited warranty.

8. IKO reserves the right to discontinue or modify any of its products, including the color blend of any shingles, without notice to the original consumer-purchaser. IKO will not be liable as a result of any such modification or discontinuance.

9. IKO will have no liability in the event that any replacement material for any shingles covered under this limited warranty may vary in color in comparison to the original product as a result of product changes or normal weathering of the original product.

10. This limited warranty is effective as of October 1, 2009.

11. This limited warranty only confers rights upon, and may only be enforced by the original purchaser of the shingles that are covered by this limited warranty, or any person to whom this limited warranty is transferred in accord with the TRANSFERABILITY set out above. No other person has rights under, or may enforce this limited warranty

12. Subject to the laws of any jurisdiction that would modify this term, no action may be brought against IKO for breach of this limited warranty or arising out of any use of or damage to the shingles that are the subject of this warranty unless it is brought within one year after any cause of action has accrued.

13. **THIS LIMITED WARRANTY DOES NOT INCLUDE ANY LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.** Some provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

14. The unenforceability of any term of this limited warranty will not affect the enforceability of any other term. If any provision of this limited warranty is unenforceable, it may be severed. In that event the remainder of this limited warranty will remain in full force and effect.

15. The installation of asphalt shingles on dimensional lumber (including shiplap or board decks) is not recommended as it may potentially cause buckling problems. Buckling is not covered by this limited warranty.

16. With Renaissance GXL 30 shingles, the base shingle has "patches" of asphalt coating and granules which help give the shingle its unique appearance. During exposure on the roof it is possible for these patches to show small fissures. These fissures can develop within the first few years depending on roof exposure, climate, roof pitch, and attic ventilation efficiency and are not the result of a manufacturing defect. They do not detract from the long term water shedding performance of the asphalt shingle roof system. (Beneath the patches, there is the shingle's base layer of asphalt and granules, and the glass reinforcement. Below this is the overlapped unexposed portion of the underlying shingle.)

17. Product bearing "ECONOMY NO WARRANTY" tape, is not covered by this limited warranty, and is sold "As Is."

18. Open metal valleys are recommended for best roof performance. If roof valleys are constructed using shingles, the shingles in the valley are not covered by this Limited Warranty.

THIS LIMITED WARRANTY REPLACES ALL OTHER ORAL OR WRITTEN WARRANTIES, LIABILITIES OR OBLIGATIONS OF IKO. THERE ARE NO OTHER WARRANTIES WHICH EXTEND BEYOND THE LIMITED WARRANTY DESCRIBED IN THIS DOCUMENT. IKO WILL NOT BE LIABLE FOR ANY ORAL STATEMENT OR OTHER WRITTEN STATEMENT ABOUT ANY IKO SHINGLE, WHETHER SUCH STATEMENTS ARE MADE BY AN AGENT OR EMPLOYEE OF IKO OR BY ANY OTHER PERSON. IKO DOES NOT AUTHORIZE ITS REPRESENTATIVES, DISTRIBUTORS, CONTRACTORS OR DEALERS TO MAKE ANY CHANGES OR MODIFICATIONS TO THIS LIMITED WARRANTY.
