Quantity per Box: 100

Weight per Box: 3.5 lbs. (1.5 kg)

All reported values are nominal.

- Used to seal intersections of membranes.
- Uniformity is superior to hand-cut patches.
- Assures reliable welds.

System Compatibility

InnoviFlash TPO Joint Covers are intended for use with IKO InnoviTPO Roofing Systems and are approved for use with an appropriate IKO Diamond Shield Limited Warranty. Building owners, specifiers, roof consultants and roofing contractors are invited to review the IKO InnoviTPO System Specifications at www.iko.com/comm for further information on including this product as part of a complete IKO roofing system.

Factory Cut 4.5-in. Diameter Assures Uniformity

InnoviFlash TPO Joint Covers are essential to preventing leaks at intersections of three or more membrane layers. They provide for reliable welds and enhance seals in the roof area.

Installed Cost is Lower than Field-Fabricated Alternatives

InnoviFlash TPO Joint Covers save a significant amount of labor compared to field fabrication with a better fit. Contractors appreciate the efficiency of IKO InnoviFlash TPO Joint Covers on the job.

InnoviFlashTM TPO Joint Cover

Installation

1. Keep TPO Joint Covers in their original bag until installation.
2. Center the InnoviFlash TPO Joint Cover over the intersection of the membrane sheets.
3. Heat weld the TPO Joint Covers beginning from the middle and progressing out, until the entire cover is fully welded.
4. Carefully roll in the cover using a silicone roller, pressing the cover into the membrane to create a complete seal, during heat-welding.
