# Stunning Looks with Dependability

IKO Cambridge shingles have been a trusted choice for new construction and re-roofing projects for decades. Known for their reliable performance, they provide a high-quality solution and excellent value.

Special colorfast granules embedded in Cambridge shingles help inhibit the growth of blue-green algae that can cause unattractive black stains, streaks, and discoloration.

## The IKO Difference

**With a legacy of craftsmanship that spans over 75 years,** we know quality. That's why contractors and their customers trust IKO to deliver beautiful, high-performing roofing systems that can withstand the most rigorous conditions — and continue protecting families for generations to come.

*Now you don't have to choose between style, durability, or dependability. IKO Cambridge shingles offer it all in beautiful, unique looks that match your home's style.*

# What sets Cambridge Shingles Apart

**1 Tough adhesive**  
 We use five strips of our tough, construction-grade adhesive to laminate the shim to the tooth.

**2 Stay-put bonding**  
 IKO's proprietary **FastLock®** sealant strips get extra tacky when activated by the heat of the sun to maximize bonding and protect against wind uplift and blow-off.

**3 Fiberglass mat core strength**  
 Our fiberglass mat is coated top and bottom with weathering asphalt, then surfaced with colored granules for exceptional durability and structural integrity.

**4 Built-in algae resistance**  
 Algae-resistant granules help inhibit the growth of blue-green algae, which can cause unsightly black streaks, stains, or discoloration.

## STANDARDS & SPECIFICATIONS<sup>4,5</sup>

SEE IT ON A ROOF

Cambridge shingles aren't just nice to look at. They boast a number of features that keep your home and family covered:

- ✓ Heavy-duty construction from a fiberglass mat core.
- ✓ Class 3 impact resistance rating<sup>6</sup> against hail\*.
- ✓ FastLock<sup>®</sup> sealant, activated by the warmth of the sun to seal down and help protect against wind uplift.
- ✓ A wide array of stunning color blends to match your home's style.
- ✓ Blue-green algae resistance.
- ✓ Superior blow-off protection. Cambridge shingles are designed to help installers fasten them more accurately, helping prevent blow-off in high winds.

<sup>6</sup>The impact resistance ratings are solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. \*This is not a guarantee of impact resistance against hail. Damage from hail is not covered under the limited warranty.

Shingles are your home's first line of defense, but they protect, perform and look their best installed with the **IKO Proformax Integrated Roofing Accessories** shown below.

PROFORMAX ROOFING COMPONENTS

1 DECK PROTECTION	2 SYNTHETIC UNDERLAYMENT	3 ROOF STARTERS	4 CAPPING SHINGLES
IKO GoldSeam® IKO StormShield®	IKO Stormtite®	IKO Leading Edge Plus™ or IKO EdgeSeal®	IKO Hip & Ridge 12™ IKO Ultra-HP®

**IMPORTANT!** To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in our brochures and in our **ROOFViewer®** tool may not accurately reflect shingle color and do not fully represent the entire color blend range nor the impact of sunlight.

**NOTE:** Product and color availability may vary by region. Products with Miami Dade NOA and FBC product approval listings are available. Meets requirements of the Texas Department of Insurance. Please contact IKO for details. \*See Limited Warranty at IKO.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. †High-wind application is required. ‡"Lifetime" means the period of time commencing on the date of the completion of the installation of the shingles on the building, and continuing so long as the original Owner owns the building on which the shingles were installed. †All values shown are approximate. ‡Products are developed with reference to these standards. †This impact rating is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. It is not to be construed as any type of express or implied warranty or guarantee of the impact performance of this shingle by the manufacturer, supplier or installer and damage from hail is not covered by the Limited Warranty. IKO recommends the use of its Class 4 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 3 impact resistance rated shingles, and the use of no less than its Class 3 impact resistance rated Hip and Ridge cap shingle in conjunction with the use of Class 3 impact resistance rated shingles. For further detail concerning the FM 4473 standards, visit the FM Approvals website.
