FASTLOCK®
SEALANT

40 SHINGLES
TO A SQUARE

IKO's Crowne Slate line uses advanced color-blending technology to beautifully mimic the subtle transitions of natural slate tiles. But the aesthetic is just half of the story. Crowne Slate shingles are made of a modified, heavy-duty asphalt to provide superior weather-resistance and stronger protection.

The IKO Difference

With a legacy of craftsmanship that spans over 75 years, we know quality. That's why contractors and their customers trust IKO to deliver beautiful, high-performing roofing systems that can withstand rigorous conditions — and continue protecting families for generations to come.

Impeccable design with far-reaching coverage.

Customers who choose Crowne Slate shingles get an exciting visual appeal that you simply can't replicate with monochromatic shingles. And with a large coverage area — Crowne Slate are the largest shingles we produce in their class — you have 10% more coverage per square. That may help you finish your jobs faster and produce less waste. Crowne Slate shingles also offer:

- Durable fiberglass mat core.
- Two coats of weathering asphalt on top and bottom for strength, durability, and flexibility.
- FastLock® sealant, activated by the warmth of the sun to prevent wind uplift.
- Class 4 impact resistance rating⁴.
- Class A fire classification.
- Elegant, blue-green algae-resistant colorblends that may resist fade from UV exposure.

CROWNE SLATE™

Designer Shingles

SPECIFICATIONS ⁵	Limited Warranty ¹	Limited Lifetime ³	Dimensions (L x W)	39 1/2 in (1003 mm) x 13 1/4 in (336 mm)	STANDARDS ⁶	ASTM D3462

	Limited Wind Warranty ¹	110 mph				ASTM D7158 — Class H
	Limited High Wind Warranty Upgrade ^{1,2}	130 mph	Coverage per Bundle	25 sq. ft. (2.3 sq. m)		ASTM D3161 — Class F
	Limited Algae Resistance Warranty ¹	10 years (blue-green)				ASTM E108/UL 790 — Class A
		Shingles per Square	40	FM 4473 — Class 4 ⁴		

Note: Product and color availability may vary by region. Products with Miami Dade NOA and FBC product approval listings are available. Meets Texas Department of Insurance requirements. Contact IKO for details.

¹Refer to the Limited Warranty at IKO.com for full terms, conditions, restrictions and application requirements. Shingles must be installed per application instructions and local building codes ²High-wind application is required. ³"Lifetime" refers to the period from installation until the original Owner no longer owns the building. ⁴Impact rating is solely for potential insurance premium reductions and is not a performance guarantee, implied or express warranty of any kind. Hail damage is not covered under the Limited Warranty. IKO recommends Class 4 or 3 impact resistance rated Hip and Ridge capping shingles be installed with corresponding impact rated shingles (refer to FM Approvals for more details on the FM 4473 impact resistance testing standard). ⁵All values are approximate.

⁶Products are developed with reference to these standards.

IMPORTANT! For complete satisfaction, view full-size shingles and an actual roof installation before selecting a color. Online swatches, brochures, and our **ROOFViewer**® tool may not accurately reflect the shingle color or full color blend range, nor show the impact of sunlight.
