## Like Genuine Wood Shakes.

IKO Armourshake premium laminate shingles stand above the crowd. Their extra-thick, contoured profile, large dragon's teeth and generous exposure evoke the bold look of natural wood shakes in a breathtaking range of ultra high-definition colors.

Armourshake shingles have earned the industry's Class A Fire Resistance rating (ASTM E108), allowing you to have the luxurious look of wood.

They are engineered to help protect against wind uplift and water penetration for enduring performance in tough weather.

Available in IKO's special "Advantage" size, these shingles offer a 5 1/2" exposure and 70 shingles to a square. Some competitors' comparable shingles can range up to 90 shingles per square, so IKO Armourshake can give you up to 20% more coverage to go down faster with less waste.
