CLASS 4
IMPACT
RESISTANCE
RATING²

Extreme Weather calls for Extreme Weather Protection.

IKO Cambridge IR with ArmourZone performance laminate shingles help resist rain, high wind and blue-green algae growth. Their special 1-1/4" reinforced nailing area (the ArmourZone) ensures incredible fastening power. They'll help resist nail pull-through even at high winds and carry a wind limited warranty¹ with the use of only four nails.

Among the largest in their class, these shingles are constructed of a fiberglass mat that's given an extra-thick coating of quality IKO modified asphalt. This makes them heavy-duty yet flexible for superior weather resistance, even in cold weather applications. IKO Cambridge IR shingles have a Class 4 impact resistance rating, which IKO is pleased to present for the sole purpose of enabling homeowners to obtain a discount on their home insurance premiums, if available in their area. (²This rating is not to be construed as any type of express or implied warranty or guarantee of the impact performance of this shingle by the manufacturer, supplier or installer.)

¹ See Limited Warranty at IKO.com for complete terms, conditions, restrictions, and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements.

Cambridge™ IR with ArmourZone®

Performance Shingles – Limited Lifetime Warranty¹

To ensure complete satisfaction, please view several full size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in brochures and in our app may not accurately reflect shingle color, and do not fully represent the entire color blend range, nor the impact of sunlight.

¹ See Limited Warranty at IKO.com for complete terms, conditions, restrictions, and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. ² This impact rating is solely for the purpose of enabling residential property owners to obtain a reduction in their residential insurance premium, if available. It is not to be construed as any type of express or implied warranty or guarantee of the impact performance of this shingle by the manufacturer, supplier or installer. For further detail concerning the FM 4473 standards, see [https://www.iko.com/na/publication/specification-test-standard-impact-resistance/wppa_open] (current as of 6/22/16). ³ All values shown are approximate. ⁴ Products developed with reference to these Standards.
