IKO's Cambridge shingles are a popular choice for both new construction and re-roofing. A true workhorse product, the Cambridge line has delighted homeowners coast to coast for decades with a great product that offers consistent performance at a reasonable cost.

The IKO Difference

With a legacy of craftsmanship that spans over 75 years, we know quality. That's why contractors and their customers trust IKO to deliver beautiful, high-performing roofing systems that can withstand rigorous conditions — and continue protecting families for generations to come.

Superior beauty, quality, and coverage in one shingle.

Your customers should never have to choose between curb appeal and superior weather performance. IKO Cambridge shingles provide all the beauty of natural textured materials — without expensive upkeep or low durability.

Plus, they go down fast and easy with 5 7/8" exposure that's larger than most other shingles in their class. Cambridge shingles offer:

- **True Square Advantage** sizing providing exactly 100 square feet of coverage in every three bundles, helping minimize waste and installation costs.
- **Fiberglass mat** core strength.
- A wide array of stunning **colour blends** to match your home's style.
- **FastLock®** modified bitumen sealant to help prevent wind uplift.
- Built-in **blue-green algae** resistance.

CAMBRIDGE®

Architectural Shingles

	Limited Algae Resistance Warranty ¹	10 years (blue-green)				CSA A123.5

IMPORTANT! For complete satisfaction, view full-size shingles and an actual roof installation before selecting a colour. Online swatches, brochures, and our **ROOFViewer®** tool may not accurately reflect the shingle colour or full colour blend range, nor show the impact of sunlight.

Note: Product and colour availability may vary by region. ¹Refer to the Limited Warranty at IKO.com for full terms, conditions, restrictions and application requirements. Shingles must be installed per application instructions and local building codes. ²High-wind application is required. ³"Lifetime" refers to the period from installation until the original Owner no longer owns the building. ⁴All values are approximate. ⁵Products are developed with reference to these standards.
