IKO NORDIC PERFORMANCE SHINGLES
We designed IKO Nordic shingles to make — and take — an impact.

These heavy-duty laminated architectural shingles are specially constructed to help your roof resist the impact of hail*. But the beautiful impact their color blends can have on your home’s curb appeal is simply irresistible.

*This is not a guarantee of impact resistance against hail and is not covered under the limited warranty. Full details on back page.

**GRANITE BLACK**
- Formal, classic, urban chic, traditional, elegant
- **PERFECT PAIRINGS:** Stone, brick, masonry, siding (especially red, white or grey)

**CORNERSTONE**
- Natural, relaxed, stately, welcoming
- **PERFECT PAIRINGS:** Stone, wood, brick, masonry, siding (especially cream, beige or grey)

**DRIFTSHAKE**

**CASTLE GREY**
Nine eye-catching, high-definition color blends create an artful roofline with IKO Nordic shingles and complementary roofing accessories, no matter what your style of home. Built-in blue-green algae resistance will help keep them looking their best.

**SEDONA**  
Warm, inviting, expansive, dramatic, yet casual, too.  
**PERFECT PAIRINGS:** Logs, wood siding, brick (especially red)

**CASTLE GREY**  
Formal, traditional, sophisticated, elegant, impressive.  
**PERFECT PAIRINGS:** Stone, wood, brick, siding (especially white or various pastels)

**SHADOW BROWN**  
Transitional shades and earthy tones. Classic or contemporary elegance.  
**PERFECT PAIRINGS:** Stone, wood, masonry, brick, siding (especially brown, grey or cream)

**BROWNSTONE**  
Rich, warm and earthly, with unexpected, but exciting, dramatic accents.  
**PERFECT PAIRINGS:** Brick, stone, masonry, logs, siding (especially cream or beige)

**FROSTONE GREY**  
Monochromatic, neutral, chic, sophisticated.  
**PERFECT PAIRINGS:** Stone, masonry, brick, siding (especially white, light or dark grey)

**GLACIER**  
Stately, formal, elegant, traditional.  
**PERFECT PAIRINGS:** Stone, brick, masonry, siding (especially white, dove-grey or midnight-blue)
Extreme weather calls for extreme weather protection. And Nordic’s unique combination of superior wind and impact resistant features makes it one of the top performing asphalt shingles on the market.

Polymer-modified asphalt. Class 4 impact resistance rating. These shingles are engineered to provide superior protection against wind uplift and water penetration. IKO Nordic’s polymer-modified asphalt coating acts like a shock absorber, qualifying the shingle for a Class 4 impact resistance rating against hail.

Built-in algae resistance. We embed color-fast algae-resistant granules into our shingles to help inhibit the growth of blue-green algae that can cause unattractive black stains, streaks, and discoloration.

What is an ArmourZone? (FRONT) It’s a 1/4 inch wide nailing surface for correct nail placement, reinforced by a tear-resistant, woven band that provides even more fastening strength over a wider surface area of the shingle.

Blow-off protection. Printed nail lines guide installers to the nailing area. Correct nail placement will help prevent the shingles from blowing off in high winds.

Limited Warranty (Limited Lifetime):
- Iron Clad Protection: 15 Years
- Limited Wind Warranty: 130 mph (210 km/h)

Built-in algae resistance. Five strips of our tough laminating adhesive are used in the construction of the Nordic shingle.

An exceptional bonding experience. You want your new shingles to stay put. If the wind lifts them up, water can sneak in underneath, potentially causing a leaky roof. Our Fastlock™ sealant along the bottom edges helps prevent this. When activated by the sun’s heat, this sealant gets extra-tacky and creates a strong bond to help ensure maximum protection against wind uplift, blow-off, and water penetration.

Laminate adhesive. Five strips of our tough laminating adhesive are used in the construction of the Nordic shingle.
