				An FBC Product Approval with HVHZ rating is valid throughout the state of Florida. Without HVHZ the rating is not valid in "high wind" zones. Products received state approval to the HVHZ test requirements can be sold to Miami-Dade and Broward Counties without having to submit and pay additional fees to the Miami-Dade Office of Product Approval or any other government agency.			
				Miami-Dade Labeling Requirement: Shingles shall have Miami-Dade County Product Control Seal on release tape and wrapper. FBC Labeling Requirement: All asphalt shingles shall be labeled with the wording "Florida Building Code, Building Product Approved" on wrapper and the wording "FBC Approved" on release tape.			

Revised 11/15/2019 by W.L.
