

StormShield™

ICE AND WATER PROTECTOR

"Invisible" protection against roof leaks.

IKO StormShield™ Ice & Water Protector

IKO StormShield™ Ice & Water Protector is an economical modified bitumen roll roofing product with a self-adhesive backing protected by a silicone-treated release sheet, which is easily removed during installation.

- Helps prevent water leakage due to ice dams and wind-driven rain.
- Improved flexibility for superior performance.
- Slip-resistant surface for safe application.
- Tear-resistant membrane.
- Glass fiber-reinforced for extra strength.
- Self-adhesive for watertight sealing.
- Self-sealing around roofing nails.
- Meets most building code requirements.

SPECIFICATIONS (approximate)

| | |
|-------------------|------------------------------------|
| Length | 65' (19.8 m) |
| Width | 36" (914 mm) |
| Roll Contents | 195 sq. ft. (18.1 m ²) |
| Nominal Thickness | 57 mil (1.5 mm) |

Wind-Driven Rain

Rain, propelled by wind is blown under the shingles, allowing water to penetrate through the unprotected roof deck, causing interior damage. Roofs with lower slopes (2:12 to 5:12) are even more susceptible to this problem.

Ice Dams

When melted snow runs down the roof to the colder eaves, an ice dam can form and cause water to back up under the shingles. Eventually, the water penetrates the unprotected roof deck and leaks through, damaging the building's interior.

Use IKO StormShield™ Ice & Water Protector on these critical roof areas.
