*Primary Route  
of Exposure:* Skin contact  
*Exposure Effects:* Possible skin irritation and dermatitis.

**WARNING:** This product may contain oxidized bitumens. The International Agency for Research on Cancer (the "IARC") published a monograph in 2013 which concluded that "occupational exposure to oxidized bitumens and their emissions during roofing operations are probably carcinogenic to humans." The IARC found that there is "limited evidence" in humans for the carcinogenicity of occupational exposures to bitumens and bitumen emissions during roofing and mastic-asphalt work. The IARC also found that there is "sufficient evidence" in experimental animals for carcinogenicity of fume condensates generated from oxidized bitumen. All other evidence of cancer in humans and experimental animals was judged "inadequate" or "limited." The physical nature of this product may help limit any inhalation hazard from oxidized asphalt during application in its hardened state. However, physical forces such as grinding, drilling and other demolition work on this product may liberate dust containing oxidized asphalt. Burning or heating of the product may cause fumes, vapors or mists.

### SECTION 7 REACTIVITY DATA

*Stability:* Stable  
*Polymerization:* Will not occur  
*Materials to Avoid:* Strong oxidizers  
*Hazardous  
Decomposition  
Products:* CO<sub>2</sub>, CO.

### SECTION 8 PREVENTIVE MEASURES

*Spill Procedure:* Normal housekeeping  
*Disposal Procedure:* Follow federal, provincial/state and municipal regulations.  
*Ventilation:* Not necessary  
*Respiratory:* Not necessary  
*Gloves:* Minimize skin contact. Protective gloves may be used when handling material.  
*Eye Protection:* Use safety glasses or goggles when necessary.  
*Other:* If contact is unavoidable, wear all necessary protective gear.

### SECTION 9 FIRST AID PROCEDURES

Wash hands with soap and water after handling.
