

BUR

ROOFING SYSTEMS

IKO.COM/COMM

- High Puncture Resistance
- Proven Long-term Durability
- Great Tolerance and Resistance
- Outstanding Strength and Toughness

Multiple plies offering systems that outperform the most demanding building requirements.

IKO® COMMERCIAL

BUR

ROOFING SYSTEMS

Traditional four-ply built-up roofing systems with full system performance from one manufacturer.

Fully integrated with IKO's Commercial Limited Warranty Program

Proven durability

- With standard application procedures IKO Built-Up Roofing (BUR) Systems offer robust protection for today's buildings. The product's stone surfacing offers maximum membrane protection, superior puncture resistance, and high resistance to foot traffic and mechanical maintenance.

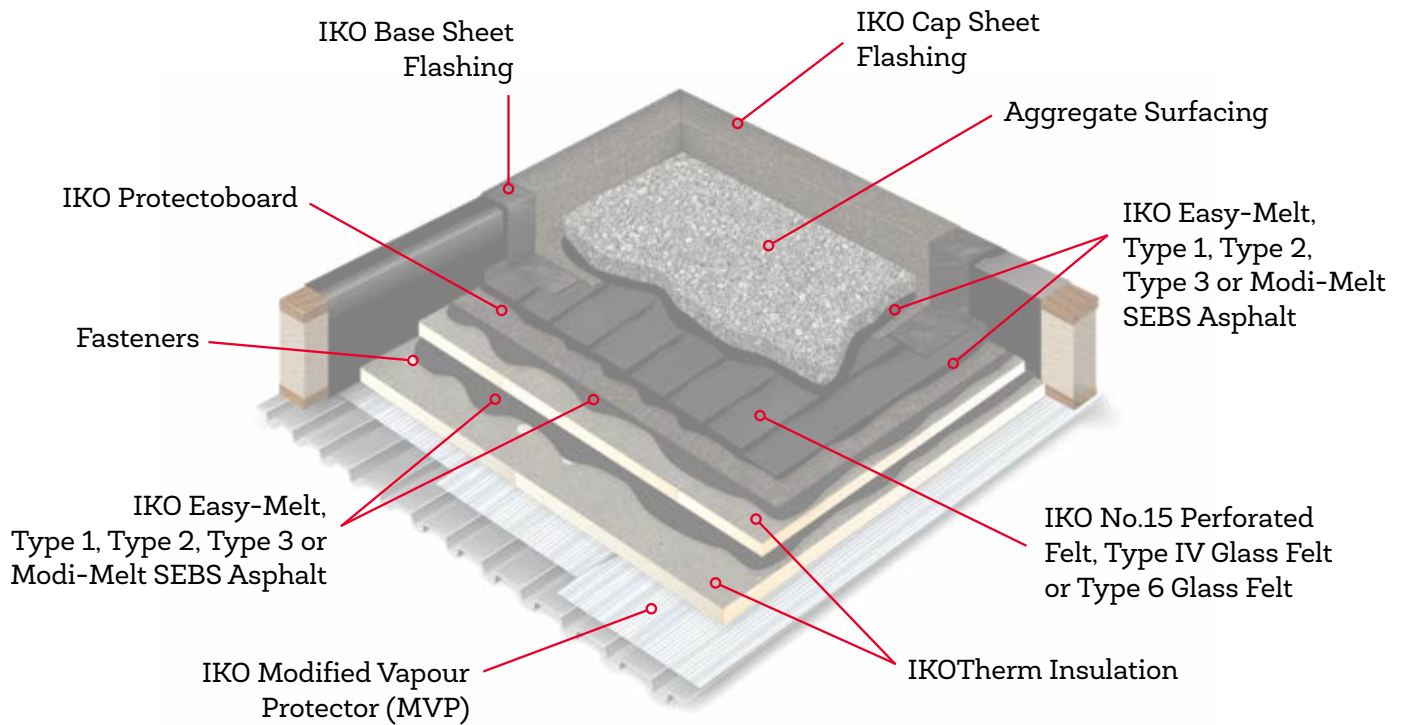

Great tolerance and thermal resistance

- BUR Systems offer great tolerance for building stress and resistance to thermal shock, with outstanding membrane strength and toughness. BUR is also known for superior fire resistance from external flames, with the most stringent Class A rating available.

Hybrid systems available to suit all building requirements

- BUR Roofing Systems can include SBS, fiberglass and organic felts, offering many options to suit all building needs. Product standards exceed Factory Mutual (FM) and CSA requirements. A number of reflective surfacing options also are available.

Products

- Type IV Fiberglass Felt
- Type 6 Fiberglass Felt
- No.15 Perforated Felt
- MF-95-SS-Base
